IR Detector

CareTech's IR Detector is a high-quality motion detector that can be used as an intruder alarm, bed alarm or passive alarm. The IR detector can be connected wirelessly to CareTech's various alarm systems to create a reassuring complete solution in individuals' homes or in sheltered accommodation.

At CareTech we develop our products and solutions in collaboration with customers and users. CareTech products and know-how offer users, care staff and relatives a reassuring complete solution that gives them extra peace of mind.

IR Detector

When someone passes in front of the CareTech IR Detector it transmits an alarm via the built-in radio transmitter to CareTech's carephones or internal system. The IR detector can also be used for activity monitoring.

Technical data

Coverage	11 x 11 m /17 x 17 m
Warm-up time	Around 1 minute
Battery	9 V alkaline or lithium
Battery alarm	Checked when detector transmits motion alarm
Frequency	868.35 MHz
Dimensions	50 x 114 x 76 mm
Article number	1-X35R8A

Approval

CE -marked. Complies with relevant standards:

Manufactured in accordance with the new RoHS directive, 2002/95/EC

(Restriction of the Use of Certain Hazardous Substances in Electrical and Electronic Equipment)
